Vote Andrew Smith and Rejoin EU on July 1st

EU REJOIN EU REJOIN EU REJOIN EU REJOIN EU RE

Send Westminster a message, vote Andrew Smith and Rejoin EU on July 1st

No-one has got the Brexit they were promised. Carrying on, trying to repair it, won't work. I'm sorry to say that it will only get worse, as we lower our environmental standards, our food standards and our employment protections. But there is an alternative. We don't have to keep on down the wrong road. Rejoin EU is your chance to tell Westminster that you didn't get what you were promised and that it is time to think again. It is your chance to say you are fed up with the posturing, fed up with the UK trying to create enemies. It is time to work with our friends and allies to create a better future.

Every vote for Rejoin EU is a step in the right direction. It is a message to Westminster that it has to change.

Where is the £350 million every week for the NHS?

It started with lies on the side of the bus and now the lies seem to be everywhere. Let's get off the Brexit bus and put an end to the lies. Let's make a better Britain.

A Better Britain, in a Better Europe, for a Better World
