Surveys in Buckinghamshire and elsewhere have shown that Brexit has led to extra costs, red tape and import & export delays. The toxic cocktail of Corona crisis and Brexit carnage leads Bucks to Britastrophe. Test and Trace: £22.5 billion and we are still looking for the lost PPE. All the while, Government cronies continue to profit from COVID projects.

Where is the £350 million every week for the NHS? Clapping does not fund the NHS.

We demand honest politicians. Leaders who say what they mean and mean what they say. Let's end the carnage of Brexit on businesses, farmers, fishermen, service industries, artists and all that are affected by the reckless approach to Brexit and COVID. Rejoin EU are the only party unreservedly campaigning to end Brexit. After the COVID-Brexit war, more austerity is not the answer. We need long-term strategy, investment and collaboration with world partners.
